Outfitter
#19943

Canadian Family Built, Owned and Operated since 1946

It all started way back in the early 1930s, when A.J. (Jim) Lecuyer was working as a fishing/hunting guide. During the winter months he worked as a logger. Then in 1945 after returning from World War II, he had purchased the land that the camp is on today. In the early days, great many of his hunters came from the mid west U.S. of A. In the '40s and '50s they had no deer, here they knew deer were big and plentiful.

Hunting was a way of life, lessons learned were passed on from his father and Grandfather. In fact, even Grandma Lecuyer was a pretty good shot as a couple of fall hunters found out. Seemed a buck was in Grandma's small garden one too many times. So Grandma shot the buck. Two guests

who happened to be at the camp at the time, fancied themselves as upstart taxidermists. Asking her if they could have the cape and antlers, she obliged. Couple years later on a return trip to the lodge, these two fellows brought the mounted deer head and presented it to her. That buck is still hanging around the camp today, only on the lodge wall, not Grandma's garden!

Hunting the big bush through the '40s, '50s and '60s certainly wasn't the easiest task to be sure. The clothing, equipment they had back then is not like anything we have today. Still, the deer, moose and bear were prolific which helped the hunt a lot.

Up until the untimely passing of Jim in 1984, he still did some big game guiding, as well as hunting with family members and friends. Each and every year looking forward to the changing color of the leaves, and to the start of another hunting season.

My fellow hunters . . .

I would like to first thank you for considering our lodge for your next hunt. Growing up in this business has been like living a dream life for me. As a kid of 8 years old shooting my first grouse I was hooked! Being a part of my first deer drives to the first time I was able to guide on my own. All the great many hunts I have been a part of, from ducks, bear, deer and moose. All the terrific folks I have been able to hunt and trade stories with. I am thankful for having the opportunity to be a part of. My old man was a pretty special kind of guy. Finding this terrific spot, clearing the land, building cabins and starting his own business from the ground up. He shared many great skills and started a great many traditions. Today, although we cater to a larger number of hunters from around the globe, we do so still based on that same solid foundation which my father started. Tradition of trust, service and positive attitude. As the proud father of two very lovely and talented daughters, both who enjoy the outdoors, fishing and hunting. I am looking forward to the day when they to will continue in our rich and rewarding history of helping thousands of folks fulfill their dream hunts.

Our camp has been in constant development over 60 years plus. We endeavor to provide the best in accommodations, equipment, meals and trained professional guides to help out each of our clients. Our packages are "no hidden cost". I truly believe you will not find (as a great many of our clients will tell you) a better all round, complete hunting package loaded with this much quality (including great game) anywhere today! You may book your first hunt with us as a new guest, but you'll be returning as an old friend! I look forward to personally discussing with you your next quality hunt!

Great hunting . . . Dan Lecuyer

All inclusive hunts include: Phone: 1-800-201-2100

- Enjoy a relaxing sauna after your day's hunt!

Meet your pro staff guides

Dan Lecuyer – Owner/Manager
*Professional Master Guide
Wildlife Educator,
Whitetail, Moose, Bear, Waterfowl*

Dan grew up in the hunting lodge business. Assisting other veteran guides on their hunts at a young age, learning most of his skills through his father who started the lodge in the mid '40s. Dan's knowledge of BIG GAME Animals, Waterfowl and their habitat has produced a great many super hunts for his many clients. As well, Dan's abilities have helped train more than 30 professional guides. Dan oversees all aspects of his clients' hunts as well as being a working guide himself.

Mario Fequet
*Professional Master Guide
Whitetail, Moose, Bear, Waterfowl*
20 years plus as a professional guide and trapper. Mario's experience with big game and waterfowl is second to none. Raised in the bush of north-eastern Quebec. He started guiding for caribou and coastal waterfowl, moose and deer. His years of trapping and logging in the winters has allowed him a better understanding of animals than most. His tracking skills are fantastic. He is one of our finest and fastest at caping out the many trophies that pass through our lodge each year. Certainly one of the most all-round, professional guides we have on staff.

Rich Organ
*Professional Master Guide
Whitetail, Moose, Bear, Waterfowl*
Rich's attitude and bush-wise skills, have placed him highly respected by both his clients as well as his fellow professionals. With over 28 years experience on Moose, Waterfowl and 12 years experience guiding for Whitetail and Bear. An avid outdoorsman, with a great knowledge for the bush and the animals.

Jerry Lecuyer
*Master Guide
Whitetail, Moose*
Jerry has over 27 years in deer and moose hunting. He grew up in the business and has had excellent success in his ability to call Big Moose. Taking time off each fall to guide in Big Bush as well as Farmland Whitetail hunts, during moose season. Let Jerry help put you on your next trophy.

Everett Jackson
*Master Guide
Whitetail, Moose*
'EV', has over 37 years experience in Big Bush hunting for Whitetails and Moose. Not many know it any better. Coming from a long line of hunters in a large family. His skills in locating, tracking are some of the best in the business. Ev is a master mechanic by trade. We are very fortunate to have his services during the fall hunting season.

Curry Fequet
*Professional Master Guide
Whitetail, Moose, Bear, Waterfowl*
Curry's attitude as well as bush wise skills, have placed him highly respected by both his clients as well as his fellow guides. Starting out with over 20 years as a caribou guide in northern Quebec. His experience covers the same amount of time for both moose bear and waterfowl. With several years of whitetail guiding mixed in. He is also one of our finest game trackers! A great many trophies have been harvested by his many clients.

WORLD CLASS DUCK HUNTING

Duck Hunting . . .

We are uniquely located, halfway up the east central side of Lake of the Woods.

Here, countless shallow back water bays and ponds offer the largest mass of wild rice found on any lake in Northwestern Ontario. Very large numbers of mallards, blue wing teal, wood ducks and black ducks nest in these areas.

Don't let others try to fool you on Ontario ducks. We are the MAIN STAGING AREA for northern flights on their way south. No other lake can boast both the numbers and length of time the ducks will stay. We are a full day and night's flight from the far northern breeding and nesting grounds. Here they stop to feed on our lush food source, and preen for their continued flight south.

This is not a hit or miss situation! You'll find no excuses here. We attract the northern flights of mallards, ring necks, buffleheads. Including major rafts of goldeneyes and bluebills. Our family has been in this area for over 75 years, and have catered to water fowlers since our lodge was first established in 1946. We are not new to the hunt, and have catered to hunters from around the world. All our Pro Staff guides are professionally trained. We have ALL the equipment to insure you and your group a most successful hunting experience. Including hunting dogs, over 700 decoys, military camo netting, a fleet of canoes, giant bail blinds, duck plucking machines. We use 21 ft. boats to transport your group to the different hunting areas in the darkness. Powered by 150 h.p. motors or better. We also own flat bottom duck boats with air cooled 35 h.p. Gator tail motors and use smaller 16 ft. boats with 25 h.p. motors to transfer your group up into the shallow backwaters.

Major flights of ducks, the most experienced, full trained and knowledgeable guides, Family run hunting lodge for over 53 years, Finest Equipment, Excellent accommodations, Finest north woods cuisine. ALL THIS adds up to, SIMPLY THE BEST HUNTING you and your group could possibly experience in Ontario, Canada . . .

In 1997, Greg Severson, of Cabela's, hunted with us and had this to say. "I've hunted different species of ducks in many places, from the prairies, coastal, South America to overseas. I had forgotten how much fun bluebill hunting was till now. This is THE BEST I've yet to experience, they just kept coming, any closer and I could hit them with my barrel." If your duck hunting adventure is for a smaller party, couples, larger groups or corporate incentive outings, you owe it to yourself and your group, to experience the VERY BEST Ontario, Canada has to offer. There really is no other choice. As in the saying "only being able to count close friends on one hand," so too is the truth that there are only a few REAL QUALITY guides available anymore. These Professionals work exclusively for Lecuyer's Lodge. Contact us, let us help in customizing your perfect duck hunt.

The hunts are combo, so you and your group can enjoy some excellent upland game hunting and fishing as well. All your superb meals are catered around your group's schedule. For the Novice, we can help in instructing you in the basic fundamentals. From your basic personal outfitting needs, to learning different duck hunting techniques. Including, calls and calling, decoy patterns, hunting with different wind conditions, building the perfect blind, concealment and more. For the ardent, experienced duck hunters, we can offer some excellent shooting in some of the most unique settings and with no crowds. Your dogs will have an excellent workout under different conditions. You will only need to bring your personal gear, guns, ammo, as we will provide all the rest in equipment and a hassle-free environment.

As we run a very high rate of returning guests under this package, you should contact the lodge as soon as possible, for any limited opening for this year or to book for next year's hunt.

CANADA'S BEST WING SHOOTING

We shot limits daily, it's everything you said and more. This is duck hunting most hunters can only dream of having thanks again. South Whitfield, MS

Again the best duck hunting I could ask for. Our group of 4 shot well over **600** shells in our 3 days of hunting. Tim Burns, OH

We Put you on Birds! 1-800-201-2100

Winter Cell: 1-815-549-7758

GROUSE HUNTING

Perhaps no finer eating bird with its plump, juicy white breast meat. Like nothing you've seen before with their unique wings and fan-like tail enabling fast flight and lightning turns. Truly one of, if not the finest upland game birds ever. Certainly the fastest for its size. We are centrally located amongst the strongest populations of ruffed grouse in all of Canada. As well, there are nice pockets of both sharptail and the very beautiful spruce grouse. There is nothing more picturesque than walking down a colorful autumn trail. On still, sunny mornings or afternoons, you hear the sounds of songbirds and other wildlife playing melodies for you. Then, suddenly, you're startled by the thundering sounds of feathers beating in the still air. Your gun comes up . . . lightning in speed by this time your bird banks a hard 90 straight into the bush, get the picture! There are miles of logging trails, and we also have our own special trails, no need to walk through the thick bush here. A very relaxing style of upland game hunting with plenty of close range shots.

Limits are 5 per day, 15 in possession. As with any of our hunts, they are tailored to your group. Our upland game hunting is perhaps some of the finest in the world. Although some groups come exclusively for these birds, we can combine your grouse hunt with your duck hunt and fishing. Making for truly a most memorable fall trip ever.

100% FAIR CHASE HUNTS FOR TROPHY WHITETALS!

No baiting! Just great scouting!! No dogs! Just superb stand placement!

I've hunted several states including 3 provinces. Yours is truly the best organized! Super hard working guides, unbelievable accommodations and food. All that and Monster whitetails too!

Bob Rogers PA

Canada's Best Fair Chase Outfitter since 1946

The Greatest Whitetail hunts on Earth!

Deer . . . Islands and Bush Hunts

We are hunting on over half a million acres of government land. Our hunts are done in the big bush and the many islands and peninsulas that are on our lake. To grasp the tremendous mass of area we are hunting, you should first know this. The lake has over one million surface acres of water. Over 14,684 islands, more than 65,000 miles of shoreline. Fact is, we need not ever hunt the same island or peninsula or bush trail more than once. Providing every group that hunts with us, fresh untouched or previously disturbed trophy whitetail opportunities. You will not see other orange hunting jackets except for your group! . . .

We take only a limited amount of hunters each year, helping to ensure your success! . . .

Northwestern Ontario has consistently and will continue to produce heavier bodied (the largest body size in North America) and large racked deer. They are plentiful here. Racks ranging from 10 to 20 points are not uncommon. Field dressed, these deer are weighing from 225 to 300 lbs. average 250 lb. The deer range from 130's to mid 170's typical, 165 to 250 non-typical.

Consistently, harvesting a good 70% on an average year to a high of 85% success rate or better on a great year! . . .

We are uniquely situated. Lecuyer's Tru-Tail Lodge is smack dab in the middle of the 6 best hunting zones in Ontario. These zones hold the highest concentration of deer. One of these zones has also been designated bow and muzzle loader exclusively and has been that way for several years. Lots of these deer have never seen man their whole life. Within minutes of the lodge you can be hunting that trophy buck you've always dreamt about.

Ontario hosts the largest population of whitetail deer in all of Canada! . . .

We have a mix of terrain – from high rocky, heavily treed ground to low swampy areas and beaver ponds. There are over half a million acres of boreal forest surrounding undoubtedly the finest forage, cover and protection that make for bigger, older deer. This is the best place for reclusive old bucks to get away from the hunting pressure. This is not a hunt for the weak or timid. This is perhaps the finest, true trophy whitetail hunt left in North America. You must be in relatively good shape, as you may expect to walk 1-3 miles a day. You may also harvest a timber wolf at no extra charge on this hunt (plus licence cost).

Less than 10% of mature bucks in this area are harvested by hunters! . . . average age of deer harvested, 4.5 -7.5 years of age. More mature bucks here, are killed by timber wolves and the winters that are so hard on old bucks! . . .

Our hunts run 6 days and are buck only. Lecuyer's Tru-Tail Lodge employs the finest qualified, most highly skilled guides available anywhere. These men love to hunt and love being in the bush. They respect it, gives back to them employment and food for the long, cold winters. They'll employ for you all their secrets and techniques – all of the knowledge passed on to them from their fathers, whose only store back then was Mother Nature's, and for the most part, still is.

We hunt peak rut times only, and after all foliage is off the under brush! . . .

All hunting areas have been pre-scouted, to help insure a successful hunt! . . .

Here we use the three basic styles of deer hunts . . . stands, stalking and slow drives. The methods vary with the area you're hunting, size of your party, weapons, weather, time of day, etc. This place has long been known by the few who were not afraid to venture forth as the place to bag BIG deer. Just ask around . . . talk to any old-timers who were here. They will all tell you that you haven't hunted woods until you've been in our bush. Contact us now to get started on your Canadian Trophy Deer Hunt. Put the odds in your favor, be one of the few to bag a true northwoods trophy buck.

As an added bonus, after you have harvested your trophy whitetail, why not try some of our outstanding fishing or fantastic grouse hunting. Both of these are free extras for hunters (licence cost extra) including boat, motor, gas and live bait!

TROPHY WHITETAIL HUNTS IN THE LAND OF THE GIANTS

Farm Land Hunts:

Lecuyer's has put together a lease on over 8,900 acres of woods and farmland, 45 miles southwest of the lodge. 4 farms encompassing 32 separate pieces of Prime hunting property. We have exclusive hunting rights for several years on all the properties. Together with each land owner we are managing both the type of hunt and number of hunters. Unlike the Island/bush hunts, here we are stand hunting only. We have built some of the finest tower stands anywhere. Being 18' off the ground, with a building 6' by 4' by 6' high. Shooting lanes out all 4 sides, padded swivel seat and urinal, they are very comfortable. Along with the tower blinds we also use the new ground blinds, giant bail blinds and ladder stands. All are over Alfalfa fields on the timber's edge. This small pocket of Ontario grows some of the richest Alfalfa in the world! The deer love it. There are plenty of river bottoms and watering holes scattered throughout the land. Here, we do two, 7 day hunts, taking only up to a maximum of 24 hunters in one season. For those who do not like to walk, this is the hunt for you. You will see plenty of deer each day. Our guides will transport you and your party to your blinds each day. Here we provide one pro guide for each two hunters. Your guide will be spotting off a different stand for you, in case you may not see something you like. Managing the hunt was the only way in which these farms would allow this land to be hunted for the first time. Should you book with a party of 6 or more hunters in your group, we will not take any other hunters on the farms the same time. Ontario hosts the second largest white-tail deer herd in Canada. This hunting zone hosts one of the highest deer densities in the entire province. This is the same deer herd as in northern Minnesota. The state of Minnesota has the highest number of record book bucks, in the top 50 ever taken. Some of our land is actually just on the other side of the river that separates Canada from Minnesota. The difference being, you will not have a million hunters walking through the woods with you. This is a great opportunity to harvest a Canadian trophy of your own. Our package is all inclusive with no add on trophy or fees. We look forward to having you join us on this trophy Canadian whitetail hunt.

I just wanted to drop a note to express our enjoyment on the hunting trip last week. It was a great experience and we appreciated all the staff while we were there. The food was good and the guides knew what they were doing and the layout of the land. We appreciate your assistance with getting our meat processed and our deer heads mounted. We look forward to doing business with you again. Benny Mitchel, WV

A TRULY FIRST CLASS MOOSE HUNT

Trophy Moose

Lecuyer's is located in a very unique area, in that besides the excellent whitetail hunting areas, we also boast some prime moose hunting opportunities. We have some vast areas that have timber harvesting going on. These are ideal locations. The region boasts nice pockets of animals. All areas are pre-scouted by our pro hunting staff to help insure your success. We hunt both the "caps" cut over ridges and around the many small lakes and swamp areas. These are some of the largest bodied moose in North America. We take nice racks each year ranging from 38" to 55". The package hunt is truly all inclusive, you need only bring your personal gear, guns and ammo. We provide all transportation to and from hunting areas, using newer 4x4 trucks and 4 wheelers. Nothing is spared to help in both finding and helping to get your trophy out. You are provided One pro staff hunting guide for each 2 hunters in your party. Additional guides are available at your request. A complete information package will be forwarded to you and your group once your booking has been confirmed with the lodge. As we have only a limited number of trophy hunts available each year you should contact the lodge well ahead of your targeted hunting dates to avoid disappointment in not getting to hunt this year or next.

CALL NOW! 1-800-201-2100

Winter Cell: 1-815-549-7758

COMBO BIG GAME 9 DAY

TROPHY WHITETAIL, MOOSE HUNT

Perhaps the ultimate Northwoods hunt available today. We offer a complete 9 day fully guided trophy whitetail, moose hunt. Get the very best, North America's two biggest prize animals in one extreme hunt. This is definitely the most memorable hunt you will ever take. That's why we call this hunt The Ultimate.

Trophy Bear Hunts

Lecuyer's Tru-Tail Lodge is located in an area which supports a very healthy bear population. We do our own conservation by limiting the dates of hunts as well as the number of hunters we accept each year.

Our Pro Staff hunting guides select and diligently service all bait sets. They ensure your safety by using safe reliable tree stands. Your guide will work with you throughout and after your hunt, including tracking and cleaning, will take proper care of your meat and trophy hide. Because it is indeed a trophy you are wanting, we operate our hunts only during the first three weeks of the season. By doing this, we ensure your highest possible success, while ensuring the best quality of your trophy hide.

We offer both bow and muzzle loader hunts as well as rifle and shotgun. We also run camera only hunts at reduced rates.

Fine Antler Products... and more

Looking for that one very unique item, to help enhance, complete the elegance and beauty of your home or cottage? Perhaps a special gift to pass on to a loved one or friend. Fine Antler Products can offer all this and more. Each piece is hand built using authentic big game animal sheds. Unlike the vast majority of reproductions you'll see elsewhere! Let us build you your very own, one of a kind, truly breathtaking piece of antler artwork. Call or e-mail for a complete colored catalog or simply visit our website.

The province of Ontario has 42 Boone and Crocket bucks, recorded between 95-98. Catering to groups, sportsmen and corporate outings since 1946.

LECUYER'S LODGE

Flying commercial, take Northwest Airlines to International Falls, MN or Kenora, Ontario, from any point into the U.S.A. Ground transportation will be arranged to the lodge. From points outside North America, commercial flights to Winnipeg, Manitoba, Canada.

Private aircraft can fly direct to Nestor Falls. Wheeled planes can land by the lodge, using our public 3800', hard surface airstrip. Landing and tie downs are free to guests. Incoming U.S. planes should phone or file a flight plan to clear Canadian Customs at Fort Frances, Ontario or at another airport of entry. You'll find our airstrip listed "Nestor Falls Airport" on U.S. and Canadian W.A.C. and V.N.C. air charts.

Airports

Airport	Runway	Traffic Advisory	Customs	Fuel
International Falls, MN	5000', Hard	Unicom 122.8	To U.S.	Yes
Fort Frances, ON	6000', Hard	Unicom 122.8	To Canada	Yes
Nestor Falls, ON	3800', Hard	129.1	No	No

Driving across the border at Fort Frances, Ontario or Baudette, MN, head for Highway 71 north to Kenora. We have 3 highway billboards to help guide you in. We are located 1½ miles north of the town of Nestor Falls. Turn down Sabaskong Bay Road (across from the Sunset Shopping Center). Proceed for 1 mile, watch for our small sign, then turn right onto "Tru-Tail Drive," your home.
